Independent Auditors' Report on Compliance with Requirements Applicable to Each Major Program, Internal Control over Compliance and Supplementary Schedule of Expenditures of Federal Awards in Accordance with OMB Circular A-133

The Board of Regents
The University of Alaska:

## **Compliance**

We have audited the compliance of the University of Alaska with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2007. The University of Alaska's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the University of Alaska's management. Our responsibility is to express an opinion on the University of Alaska's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the University of Alaska's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the University of Alaska's compliance with those requirements.

In our opinion, the University of Alaska complied, in all material respects, with the requirements referred to above that are applicable to its major federal programs for the year ended June 30, 2007. However, the results of our auditing procedures disclosed instances of noncompliance with those requirements, which are required to be reported in accordance with OMB Circular A-133 and which are described in the accompanying schedule of findings and questioned costs as items 2007–1, 2007–2, and 2007–3.

#### **Internal Control over Compliance**

The management of the University of Alaska is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the University of Alaska's internal control over compliance with the requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the University of Alaska's internal control over compliance.

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in the University of Alaska's internal control that might be significant deficiencies or material weaknesses as defined below. However, as discussed below, we identified a certain deficiency in internal control over compliance that we consider to be a significant deficiency.

A control deficiency in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the entity's internal control. We consider the deficiency in internal control over compliance described in the accompanying schedule of findings and questioned costs as item 2007-3 to be a significant deficiency.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the entity's internal control. We did not consider the deficiency described in the accompanying schedule of findings and questioned costs to be a material weakness.

The University of Alaska's response to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. We did not audit the University of Alaska's response and accordingly, we express no opinion on it.

#### **Schedule of Expenditures of Federal Awards**

We have audited the basic financial statements of the University of Alaska and its discretely presented component unit as of and for the year ended June 30, 2007, and have issued our report thereon dated November 2, 2007. Our audit was performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

This report is intended solely for the information and use of the Board of Regents, management, others within the entity, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

November 2, 2007, except for the Student Financial Aid Cluster and CFDA # 84.031 which are as of July 1, 2009.

Notes to Schedule of Expenditures of Federal Awards Year Ended June 30, 2007

#### (1) General

The accompanying Schedule of Expenditures of Federal Awards presents the activity of all federal financial assistance programs of the University of Alaska. The University of Alaska is a constitutionally created corporation and a component unit of the State of Alaska. Federal financial assistance received directly from federal agencies as well as federal financial assistance passed through other government agencies is included on the schedule.

## (2) Basis of Accounting

The accompanying Schedule of Expenditures of Federal Awards is presented using the economic resources measurement focus and accrual basis of accounting, which is described in note 1 to the University of Alaska's financial statements.

#### (3) Noncash Federal Awards

The University receives Federal awards under the Perkins Loan Program (CFDA #84.638). The outstanding loan balances under this program totaled \$(5,762) as of June 30, 2007.

# (4) Subrecipients

The University of Alaska passed through \$7,609,344 of federal awards to subrecipients for the year ended June 30, 2007. Expenditures incurred by the subrecipients are listed below by federal program. These amounts are included in the Schedule of Expenditures of Federal Awards.

Federal Agency and Program	CFDA#	F	Expenditures

(2) Findings Relating to General Purpose Financial Statements Reported in Accordance with Government Auditing Standards

None.

Schedule of Findings and Questioned Costs, restated June 30, 2007

## (3) Findings and Questioned Costs Related to Federal Awards

Finding 2007-1

Department of Education, TRIO Cluster, TRIO-Talent Search Program CFDA 84.044, Program Year 2005-2006

**Criteria or Specific Requirements** – According to the Code of Federal Regulations (CFR), Title 34, Sections 643–7 and 643–10, at least two-thirds of the individuals served by a talent search project must be low-income individuals who are potential first generation college students.

**Condition** – For the program year 2005-2006, 55.8 percent of the University of Alaska Fairbanks (Bristol Bay region) Talent Search program participants were low-income individuals who were potential first-generation college students.

**Ouestioned Costs** – None.

**Context** – Isolated to Talent Search Program.

**Effect** – The University provided talent search program services to a population that did not meet the program's earmarking requirement.

**Recommendation** – The University should make every effort to serve the number of Talent Search participants required by the program.

**Views of Responsible Officials** – Please refer to management's corrective action plan attached.

*Finding 2007–2* 

Department of Education, TRIO Cluster, TRIO-Student Support Services, CFDA 84.042, Program Year 2005-2006

**Criteria or Specific Requirements** – According to the Code of Federal Regulations, Title 34, Sections 646–7 and 646–11, at least two-thirds of the students served by a Student Support Services project must be low-income individuals who are the first generation college students or individuals with disabilities.

**Condition** – For the program year 2005-2006, 47.7 percent of the University of Alaska Southeast Campus Student Support Services Program participants were low-income individuals who were the first-generation college students or individuals with disabilities.

**Ouestioned Costs** – None.

Schedule of Findings and Questioned Costs, restated June 30, 2007

## (3) Findings and Questioned Costs Related to Federal Awards, Continued

Finding 2007-2, Continued

**Context** – Isolated to Student Support Services.

**Effect** – The University provided student support services to a population that did not meet the program's earmarking requirement.

**Recommendation** – The University should make every effort to serve the number of Student Support Services participants required by the program.

**Views of Responsible Officials** – Please refer to management's corrective action plan attached.

**Finding 2007-3** 

Department of Education (DOE), Student Financial Assistance (SFA) Programs Cluster, Federal Family Education Loans (FFEL) (CFDA #84.032) and Federal Pell Grant Program (CFDA #84.063)

Criteria or Specific Requirements – According to the Code of Federal Regulations (CFR), Title 34, Section 668-22, when a recipient of Title IV grant or loan assistance withdraws from an institution during a payment period in which the recipient began attendance, the institution must determine the amount of Title IV assistance earned by the student as of the student's withdrawal date. If the total amount of Title IV assistance earned by the student is less than the amount that was disbursed to the student or on his or her behalf as of the date of the institution's determination that the student withdrew, the difference must be returned to the Title IV programs. In accordance with CFR, Title 34, Section 668-22, returned funds are to be allocated in the following order: unsubsidized FFEL, subsidized FFEL and then Pell Grants.

According to the CFR, Title 34, Section 668-173, returns of Title IV funds are required to be deposited or transferred into the SFA account or electronic fund transfers initiated to the Department of Education or the appropriate FFEL lender as soon as possible, but no later than thirty days after the date the institution determines the student withdrew.

**Condition** – For the program year 2006-2007, the University of Alaska failed to identify and calculate refunds for 12 Title IV recipients, calculated and returned funds untimely for seven Title IV recipients, and allocated one return incorrectly.

**Ouestioned Costs** - \$8,164

**Context** – Isolated to Federal Family Education Loans and Federal Pell Grant Program. A sample of 40 students was initially selected for test work. Of this sample, six exceptions were identified. Test work was expanded over all student withdrawals at those campuses for which exceptions were identified.

Effect – The University of Alaska, Fairbanks failed to calculate returns for 12 students that withdrew from the institution, resulting in \$4,300 and \$3,864 of under-returned, unsubsidized FFEL and Pell Grants, respectively. The returns should have been made during the last quarter of 2006 and first quarter of 2007; however, were not identified until September of 2008. The University of Alaska, Fairbanks also incorrectly returned \$1,123 of Title IV funds to the unsubsidized FFEL loan fund, of which \$286 should have been returned to the subsidized FFEL loan fund.

Schedule of Findings and Questioned Costs, restated
June 30, 2007

The University of Alaska Southeast returned Title IV funds untimely for 7 students that withdrew from the institution. The untimeliness of the returns ranged from 1 to 3 months.

**Recommendation** – The University should make every effort to properly calculate and return Title IV funds within the allowable time period and establish a control system that would prevent untimely and incorrect calculations in future periods.

**Views of Responsible Officials** – Please refer to management's corrective action plan attached.

# Independent Auditors' Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

The Board of Regents
The University of Alaska:

We have audited the financial statements of the University of Alaska and its discretely presented component unit as of and for the year ended June 30, 2007, and have issued our report thereon dated November 2, 2007. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

# **Internal Control over Financial Reporting**

In planning and performing our audit, we considered the University of Alaska's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing an opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the University of Alaska's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the University of Alaska's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the financial statements will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

# **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the University of Alaska's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an

opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the Board of Regents, management, others within the entity, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
